

Dear Mom,

Hang Up and Hang Out. I would like you to spend more time with me instead of talking on the phone with your friends. You sometimes talk at dinner time. You also talk in the car on the way to school. And sometimes when we are having family game night. Can you try not to talk on the phone when we are having a big discussion that is very important? And sometimes when you pick me up at school you are talking on the phone with your friends. When I used to play soccer you were talking on the phone when I scored a goal. Some of them you did not see me score for my team. When we are home you are talking to grandma or Gretchen. I do not mean to be rude but you need to hang up and hang out for a week or two.

Love,

Ryan
